Used to remove unsightly graffiti from brick, concrete block and natural stone surfaces.

No More Graffiti

Sacrificial protective coating

Used to protect masonry surfaces from defacement. Simply wash graffiti off with hot water.

Tech-Dry[®]

innovative solutions

Tech-Dry® Biodegradable Graffiti Remover

Non-toxic
Low odour
Water soluble
Environmentally friendly
Long-acting gel
Superior performance
Easy to use

Application directions:

Apply BGR by brush, roller or airless sprayer over the area of graffiti.
Once the graffiti is dissolved, wipe gel away with a damp cloth.
Rinse with clean water.
Re-apply to stubborn areas if required.

Please refer to the detailed application instructions on the container or data sheet before applying

Tech-Dry® No More Graffiti

Water-based sacrificial coating
Environmentally friendly
UV stable and durable
Clear matt finish
Easily removed with hot water

Application Directions:

The surface to be treated should be dry, firm and clean.
The product can be applied by brush, roller or airless sprayer.
Multiple coats may be necessary on permeable or uneven surfaces.
If and when graffiti occurs pressure clean the treated area with hot water, followed by re-application once the surface is dry.

Please refer to the detailed application instructions on the container or data sheet before applying

CSIRO Tested

Tech-Dry No More Graffiti meets the requirements of the APAS Specification 1442 'Temporary Graffiti Barrier' appendix 'Method For Assessing Protection Against Graffiti' tested by CSIRO. For a copy of the report please contact Tech-Dry on 03 9699 8202
