

## **PRODUCT INFORMATION**

### **BIODEGRADABLE GRAFFITI REMOVER**

**Page 1 of 1**

**Manufacturer's Code:** RPBGR

**Updated:** 22/09/2014

**Product Name:** BIODEGRADABLE GRAFFITI REMOVER

**Description:** BIODEGRADABLE GRAFFITI REMOVER (BGR) is a unique blend of biodegradable, low odour, low toxic and water-soluble materials which effortlessly removes graffiti from most surfaces. This product is in the form of a long-acting gel that clings onto and completely dissolves graffiti in the form of spray enamels and felt tip markers.

**Recommended Uses:** BGR is used to remove graffiti from building materials. It may also be used as a paint stripper to remove oil-based paint. The important features of BGR include:

- It is very efficient at dissolving graffiti so that it can be simply wiped off.
- The composition does not contain methylene chloride and is biodegradable.
- The long-acting gel can be left on stubborn graffiti for extended periods.
- The product is miscible in water for easy clean-up.
- User-friendly low odour formulation.

As masonry materials and graffiti paints vary significantly, a test **MUST** be carried out prior to application to find out the suitability of this product for the purpose.

**Use Instructions:** Please read the product information for the correct use and safe handling. Follow the steps below when removing graffiti from a building.

- a. Apply BGR by brush, roller or airless spray as a film in areas of graffiti. Allow a few minutes for the dissolution to take place.
- b. When the graffiti has been dissolved, wipe the gel from the surface with a slightly damp cloth, followed immediately by rinsing with clean water or a wet cloth.
- c. Re-apply the product on any stubborn areas until all graffiti has been removed.
- d. Do not apply the product onto any area you do not wish to treat. If this occurs, the product can be washed off with water.
- e. Take care when applying BGR to painted or plastic surfaces. This product may cause paint or plastic to be damaged. Test on a small inconspicuous area to check the compatibility before use.
- f. Clean up all equipment in water.

**Important Note:** Avoid vapour inhalation, skin and eye contact by using the appropriate protective chemically resistant goggles and gloves. Wear an air-purifying respirator if there is a risk of exposure to high vapour concentrations or mist when spray. Ensure adequate ventilation. Wash hands after handling. If skin comes in contact with the product wash it off immediately with large amounts of water. Seek medical attention if necessary.

**Handling & Storage:** BGR is a hazardous and combustible material. Refer to the material safety data sheet for safe handling. Follow good industrial hygiene procedures when use. The product should be stored in closed containers in a cool dry place away from any fire or ignition sources. BGR has a shelf life of 12 months in a sealed original container under 25°C.

**Use with sufficient ventilation away from any fire or ignition sources!  
Keep out of reach of children!**

**Packaging:** BGR is available in 1 litre plastic bottle or other container sizes on request.

**Disclaimer:**

The information given in this data sheet is based on many years of experience and is correct to the best of our knowledge. As the storage, handling and application of this material are beyond our control; we can only be responsible for the quality of our product at the time of dispatch. We reserve the right to alter certain product parameters within the spectrum of properties in order to keep abreast of technical advances. It is the responsibility of the end user to determine the suitability of this material for any particular application.
